

IT FRAUD? COMPUTER MISUSE? BEEN HACKED?

ENCRPTION'S DIGITAL FORENSICS SERVICE CAN HELP

A few years ago cases of computer misuse and IT Crime (Cyber Fraud) were almost unheard of. Now they are an everyday occurrence, and can often lead to an industrial tribunal or a criminal/civil case; they will almost certainly result in a loss of some sort to the organisation concerned.

Encription are CESG CHECK approved penetration testers.

WHAT TO DO 

IT FRAUD? COMPUTER MISUSE? BEEN HACKED?

If you think you may have a problem you should:

- ✓ Take the correct steps once an incident is suspected.
- ✓ Understand what procedures to follow to ensure that evidence is not tainted or lost.
- ✓ Call or email encryption

**IF THE DEVICE SUSPECTED IS ON - LEAVE IT ON - MAKE SURE NO ONE TOUCHES IT.
IF IT IS OFF LEAVE IT OFF - DO NOT START IT UP - KEEP IT SAFE**

**CONFIDENTIAL
INCIDENT HOTLINE

Encryption Limited is an IT Security and Digital Forensics company.

We are an approved GCHQ CESG CHECK penetration testing company and we carry out IT Security work for a wide range of organisations including Government, Local Government, Building Societies, Fire and Rescue Services, International Airports, Commercial Organisations, Charities and many others.

We can carry out a discreet and confidential Digital Forensic investigation for you and we follow the ACPO (Association of Chief Police Officers) guidelines for identifying, securing and analysing the data and evidence found.

Encryption can make sure that your IT systems are secure and remain so.

We are also penetration testers.
